

North Park Mini-Park & Associated Streetscapes

The slide features a large, solid dark brown rectangular area in the center. Above this area, there is a horizontal bar divided into two segments: an orange segment on the left and a light green segment on the right. Below the brown area, there is another horizontal bar divided into three segments: a small dark olive green segment on the left, a medium brown segment in the middle, and an orange segment on the right. The text "PROJECT PROCESS" is written in a light green, sans-serif font on the right side of the brown area.

Community Workshop #1: Visioning Session

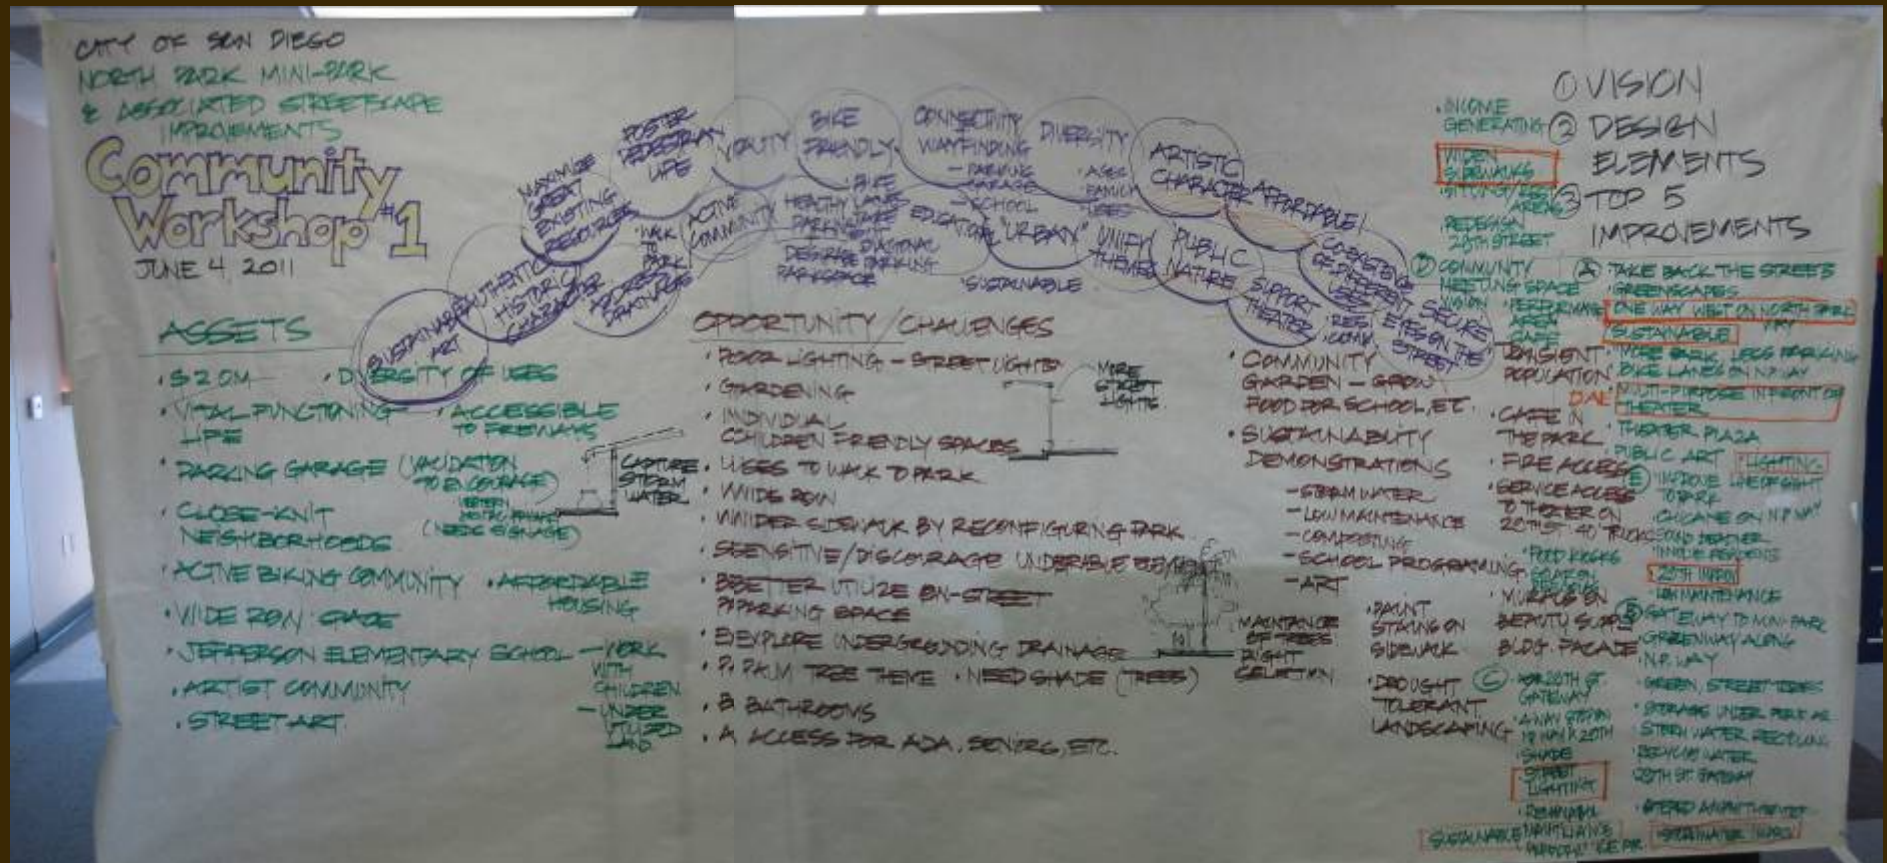

The slide features a large, solid dark brown rectangular area in the center. Above this area is a horizontal bar divided into two sections: an orange section on the left and a light green section on the right. Below the brown area is another horizontal bar divided into three sections: a small dark olive green section on the left, a medium brown section in the middle, and an orange section on the right. The text "COMMUNITY VISION" is positioned on the right side of the brown rectangle.

ASSETS

Assets

- Diversity and proximity of uses and destinations (University Ave, Jefferson School, etc)
- Close-knit affordable neighborhood
- Authentic, vital, cohesive and diverse culture
- Artistic community
- Historic character

Assets

- A central, under-utilized space for a park
- Wide right-of-way (streets)
- Under-utilized parking garage
- Active biking community
- Available (partial) funding

CHALLENGES

Challenges & Opportunities

- Accommodating **multiple desired uses** for the park from multiple interest groups
- Creating a **safe, pedestrian friendly environment** through design & programming
- Celebrating and integrating **North Park character**
- **Addressing potential noise disturbances** affecting neighboring residents
- **Minimizing impacts to local businesses** and Jefferson Elementary School
- Addressing **access to the adjoining properties**

Challenges & Opportunities

- **Balancing the multi-modal needs** of automobile, pedestrian and bicycle traffic, while improving overall traffic safety
- Enhancing awareness of and **access to parking structure**
- **Reducing on-street parking**
- **Improving stormwater drainage**
- Designing around **above-ground utilities**, or undergrounding
- Applying an **appropriate mix of plant and tree species**
